NEW TARIFFS

RETAILER DISCLOSURE FOR YEAR ENDING 31/03/2010

The Electricity Information Disclosure Requirements 2004 require Counties Power Ltd to disclose the existing line charges and any changes to these charges. Our prices will be changed on the 1st April 2009 and are disclosed as follows with network codes:

Note:

- All prices are GST exclusive.
- Summer is from Oct 1 to Apr 30.
- Winter is from May 1 to Sep 30.
- Delivery price (excludes discount) is the combination of both the Transmission price and Distribution price (where the Transmission price represents payment towards the use and supply of the national network and the Distribution price represents payment toward the use and supply of the local network).
- Price Category represents the fixed rate combinations (Supply charge and meter charge) and the Installation Details represents the variable rate combinations. The combination of these represents the customer's network tariff type.
- The following categories of electricity supply are "closed" (which means that these tariff types are no longer offered – please contact us for further information if required):

Special Time Of Use (TOU schedule VII), Special Day Night and Priority Econopower, Dairy Irrigation
