

**COUNTIES POWER TARIFF DISCLOSURE FOR YEAR ENDING 31/03/2011**

Our prices will be changed on the 1st May 2010 and are disclosed as follows:

All prices are GST exclusive

Summer is from Oct 1 to Apr 30

Winter is from May 1 to Sep 30

Tariffs that are shaded are closed and are not available to new customers. This includes TOU VII, Special Day/Night, Dairy Irrigation, and Priority Econopower

The total price is a combination of the transmission component and the distribution component. The transmission component represents payment for use of the national network owned by Transpower New Zealand. The distribution component is for use of the Counties Power Network.

Counties Power guarantees a total annual discount of at least \$3,000,000. The effect of this discount is shown as the total price inclusive of discount.

In addition we will add to this amount any rental rebate income received from Transpower New Zealand.

The size of the discount the customer will receive is based on the usage at the customer's current address as at the cutoff date in November 2010. Only customers who are connected to our network on the cutoff date are eligible for the discount.
